OK. How about sometime between 2:30 and 5 on Thursday?

Could you carve out an hour to talk to them?

Just some info - the interviews are actually being held between July 5 and July 19 but we'd like to take advantage of you being in town to do this in person. You will get the questions that will lead the discussion in advance. Your responses are confidential and we want you to feel comfortable to speak freely. I'm copying Lou and James here to chime in in case I forgot anything.

Thanks so much Kathleen - I'm looking forward to seeing you next week.

Vicki

Hi Vicki, I will be in the office on Tuesday, but I will be using that day to prep for the meeting. And Thursday I will also be around, but I plan on attending the TBA meeting for at least part of the day (I worked on the kidney section and I have an interest in thyroid). I fly out on Thursday night.

Yes, you sent APIs comments. Thanks!

Hi - the only comments I see were from Patrick Beatty which I did forward to you(?) BTW, I contacted him and asked him to submit them to the BaP docket instead of the TBA docket and he said he would.

If I get any new ones, I'll pass them to you right away.

When are you coming to town? Would you have time to talk to the ICF folks about project/program management? Maybe after the meeting?

Thanks
Vicki

Hi Vicki, do you know if any more comments or slides on BaP have come in?

Hi

Several comments were submitted to the tert-Butanol docket last night including this comment from API which references the TBA docket, but really discusses the BaP dermal slope factor (see attached). I can have it moved to the BaP docket but would you rather I contact him to ask that he resubmit to the BaP docket instead? He might want to have the opportunity to change his letter. If so, we can have the comment submitted to the TBA docket be held back from posting and we can put a note in there explaining the error.

What do you think?

Vicki
